

HOW TO

Quickly Create a New Pin

CHECKLIST

1. Open up multiple windows: Wordpress blog post, Pinterest, stored image location, blog post online, text editor like Google Docs.
2. Copy old pin description from Pinterest and save to a text document.
3. Upload the image you want to use.
4. Copy the old pin description from the text document into your new pin in Pinterest and revise as needed.
5. Copy and paste the new pin description into the html code of every Pinterest image in your old post and publish your new pin.
